Product information

| | |
|-----------------|------------------------------------|
| Product Name | PP Cable Filler Yarn, Cable Filler |
| Product HS Code | 5607-9000 |
| Supply Ability | 100 MT Per Month |
| Yarn Type: | Texturized, fibrillated |
| Pattern: | Raw |
| Material | PP |
| Twist: | 0---100TPM |
| Color | Natural, White, Black |

Specification For Polypropylene Yarn:

1. Material Description:

Polypropylene split yarn used as filler for low and medium voltage power cables.

2. General Characteristics

Flexible halogen free White colored polypropylene yarn suitable for use as filler in power cables.

3. Material Properties

| | | |
|------------------------------|-------|-----|
| Weight variation (mm), max | ±10 | % |
| Lay length | 25 ±2 | cm |
| Tensile strength*, min | 0.2 | g/D |
| Elongation*, max | 40 | % |
| Heat shrinkage (100 °C), max | 8 | % |

Nominal weights (mm) will be mentioned in company order.

4. Packaging

The material is tightly and smoothly wound on hardboard or plastic core with max 10mm protrusion and min ID 52mm and covered by plastic bag. 50kg to 70kg per bag. For spools of 255mm height, 9 spools are packed in one bag, for 460mm spool size 4 spools are packed in one bag. On pallets, the spools are stacked on each other with anti slip sheets in between the layers of spools, that are tightened together on the pallets with plastic packing strips. The whole pallet is shrink wrapped with labels on each sides.

| Sizes | Jumbo Size Packing | Standard Packing |
