

ASHRAF PLASTIC WORKS

PAKISTAN'S LARGEST PP CABLE FILLER MANUFACTURER

Since 1990

CABLE FILLER

Our Cable Fillers provide outstanding fill per unit weight, low cost and superb impact & crush resistance without the high capital costs and limited line speeds of extruded fillers. Our yarns are offered in different colors and will evenly fill cable free space, improving the aesthetics, robustness and marketability of your cable.

Our Expertise in producing a variety of high quality performance cable fillers is backed by years of continuous product development and manufacturing processes recognized industry wide.

PRODUCT SPECS:

Our PP Cable Filler is manufactured with tight process capability standards, ensuring high levels of consistency are met for your unique wire and cable needs.

Specifications							
Diameter mm	1.5	2	4	6	8	12	20
Breaking Strength* (kg) Equal / mm	24	36	52	63	80	90	180
Breaking Elongation** (%) Equal / mm	10	10	10	10	10	10	10
Heat Shrinkage	7%	7%	7%	7%	7%	7%	7%

* ** Depends upon the extrusion of film

FEATHURES:

- Footage is guaranteed
- Excellent elongation
- Impact absorbing design
- 6-7% shrinkage for filler (100°C, 30 min)
- Excellent fill-to-cost ratio
- Very long lengths available (Bigfoot)
- Twisted or untwisted versions
- Payoff spools for ease of use
- Different Color options

- Ashraf Plastic Works recommends material be protected from dust, liquids and sharp edges and to be stored in original packaging until used.
